

## TRAINING COURSE

# ICAO-ITP: Competency and Licensing of UAS Remote Pilots (European Categories): Virtual Classroom

## Introduction

---

This course is an ICAO Training Package (ITP), developed by ICAO and JAA Training Organisation (JAA TO), using the competency-based training methodology (Doc 9941).

This ITP is based on ICAO Standards and Recommended Practices (SARPs) in Annex 1 (Personnel Licensing) to the Chicago Convention, including Amendment 175 (i.e. Remote Pilot Licence - RPL), applicable from November 2022.

The course also covers common European rules (i.e. Regulation 2019/947) supplementing the ICAO provisions for Remote Pilots (RP) for domestic operations (i.e. Urban Air Mobility with VTOLs) as well as for the competence of RPs in the open and specific category.

**This course is the first ICAO ITP in the field of UAS.** It will enable participants to apply the envisaged European Regulations concerning licensing of RP, based on Amendment 175 to ICAO Annex 1 and Amendment 6 to the 2<sup>nd</sup> edition of ICAO PANS-TRG (Doc. 9868).

### COURSE DURATION

3-days instructor-led virtual delivery course.

### TARGET GROUP

Aviation professionals, inspectors of CAAs, notified bodies or qualified entities, UAS operators, managers of UAS training organisations, instructors and examiners for RPs feeling the need to receive essential information on the competence of RPs.

The target group includes:

- Middle managers, policy advisors, rulemaking officials and Personnel Licensing (PEL) inspectors
- Middle managers, course developers and aviation professionals desiring to receive detailed information on the international standards and EU rules applicable to the competence of personnel involved in civil UAS operations

- Entrepreneurs involved in drones and wishing to expand their activity in the area of training and verification of competence
