

TRAINING COURSE

National SAR Plan Development Course

Introduction

This course is delivered in cooperation with Search and Rescue International (Ltd).

A five-day workshop offering State SAR authorities wishing to initiate, develop or review their national SAR plan the opportunity to enhance their knowledge and skills in assessing their SAR environment and to construct and publish robust requirements for their SAR stakeholders in the maritime and aeronautical areas of their national SAR system.

The course is a combination of instruction and facilitation. The modules will have references to documents to review, interpret and then apply to case studies to build a bespoke framework to take away and further develop on-site.

COURSE DURATION

5 days, starting at 09:00 each day and finishing at approximately 17:00 on the last day.

TARGET GROUP

Government departments or agencies responsible for search and rescue i.e. Departments for Transport, Coast Guards, national aviation authorities, competent authorities etc.
