EASA Part-IS

Introduction

This course will enhance comprehension of the evolving regulatory landscape surrounding Information Security Management Systems (ISMS). It addresses the current requirements for equipping organizations with the competence needed to establish robust ISMS, bolster resilience, and safeguard the aviation system against information security risks.

This course provides a detailed overview of the new regulatory framework by EASA in connection with the requirements for the management of information security risks with a potential impact on aviation safety for organisations and authorities [ISMS].

🕐 COURSE DURATION

3 days, starting at 09:00 and ending at approx. 16:30.
