

TRAINING COURSE

Introduction to Security Culture

Introduction

Security culture is a set of norms, beliefs, values, attitudes and assumptions that are inherent in the daily operation of an organisation and are reflected by the actions and behaviours of all entities and personnel within the organisation. Security should be everyone's responsibility - from the ground up. An effective security culture is about: recognising that effective security is critical to business success; establishing an appreciation of positive security practices among employees; aligning security to core business goals; and articulating security as a core value rather than as an obligation or a burdensome expense.

This course is delivered in collaboration with a partner and on request. Please contact JAA TO for the possibilities.

COURSE DURATION

2 days, starting at 9AM and ending at 5PM

TARGET GROUP

This course is suitable for individuals at a supervisory/management level engaged in aviation security around the world, from National Aviation Authorities, government and industry.
