

TRAINING COURSE

FSTD Extended Evaluation for Operators

Introduction

Aircrew Regulation allows for FSTD Operators to apply for an Extended Evaluation Programme; this means that the Competent Authority may extend the evaluation period up to 36 months, instead of 12 months. To achieve such extension the operator must have a robust CMS and implement a process to self evaluate their own devices.

This course explains such a process which mirrors the process followed by Competent Authorities when performing recurrent evaluations, although it does have some differences.

Please note this is not a FSTD evaluator course.

COURSE DURATION

3 Days: 09:00 - 17:00 hrs.

TARGET GROUP

This training is ideal for FSTD Operators and ATOs operating FSTDs, applying for the EEP Program. Staff include simulator technicians, technical managers/instructors, flight instructors, compliance and safety managers, and auditors.

Note: For successful self-evaluation and extension approval, Sufficient knowledge regards to QTG reruns and fly-outs should be available within the operators organisation.
