

TRAINING COURSE

ICAO & EASA Safety Management System Requirements - Workshop

Introduction

This workshop is a continuation from our **ICAO and EASA Safety Management System Requirements - Introduction** course which must have been completed before this workshop can be attended. It will ensure that there is an opportunity for the delegate to develop the hands-on experience of conducting Hazard identification and Risk Management techniques in addition to more advanced methodologies using case studies throughout the course.

Further your knowledge and practical application of modern SMS techniques.

By attending this workshop, you will receive mentoring, tuition and the opportunity to partake in practical exercises to allow you to further develop your SMS application skills.

COURSE DURATION

2 days, with Day 1 starting at 09:00 and finishing at 16:30; Day 2 starting at 09:00 and finishing at 15:00.
