

## TRAINING COURSE

# ACI - GSN 5: Advanced Safety Management Systems

## Introduction

This course takes an in depth look at Safety Management Systems (SMS) by describing the requirements and composition of an SMS. It also explains how to implement and improve Safety Management through Safety Monitoring, Training and Documentation. Delegates are introduced to the use of Aeronautical Studies in the aviation system and the management of safety through Hazard identification and Risk Assessment. Group exercises and case studies allow participants to apply what they learn and gain essential insights.

**Note:** ACI Members and Least Developed Countries (Members) are eligible for discounts on course tuition which will be processed during registration. Please contact our [Training Department](#) via [training@jaato.com](mailto:training@jaato.com). More membership details [here](#).
