

TRAINING COURSE

ACI - Capacity Enhancement and Resource Planning

Introduction

This course gives participants an in-depth understanding of the fundamentals for improving efficiencies at airports with an emphasis on increasing capacity without the need for significant investment in infrastructure. It aims to improve communications between all stakeholders at an airport and examines each of the key elements which contribute to an airport's efficiency, namely landside, terminal, airside and airspace.

Note: ACI Members and Least Developed Countries (Members) are eligible for discounts on course tuition which will be processed during registration. Please contact our [Training Department](#) via training@jaato.com. More membership details [here](#).

Least Developed Countries Member Price*/ African Airports Development Program Price	Member/WBP Price	Non-Member Price
\$1.260,00 € 1.090,00	\$1.410,00 € 1.215,00	\$2.215,00 € 1.910,00
