TRAINING COURSE
# Recurrent Auditing Techniques

# Introduction

This auditing techniques course provides participants with the basic skills, knowledge and attitudes to support an organisation's compliance monitoring processes. This course aims to review and improve participants' auditing techniques by re-visiting previous training elements and, additionally, addresses performance-based auditing and risk-assessing findings.

This is a recurrent course designed to review and enhance auditing techniques.

Over time, in fact, auditing skills may not develop to the necessary level for fully effective auditing, or auditors may adopt bad practices that significantly reduce the effectiveness of audit activities. Furthermore, new best practices may have emerged that auditors are unaware of, making it essential to refresh and update their knowledge regularly

This course aims to review and improve auditing techniques of auditors by re-visiting previous training elements and addressing performance-based auditing and risk-assessing findings.

## 🕐 COURSE DURATION

2 Days: 09:00 - 17:00 hrs.

## 👤 TARGET GROUP

→ Aviation Auditors and Aviation Lead Auditors that would like to refresh their auditing technique knowledge.

→ In particular, this course is directed to those Auditing Professionals who have previously attended one of the JAA TO range of auditor training courses, or other internationally recognized auditor training programmes/have several years of audit experience, and who wish to update their competences in relation to current audit 'best practices' in auditing techniques.
