

TRAINING COURSE

EASA Part-IS Essentials for Managers Course

Introduction

Please note that this course is not intended to replace the comprehensive three-day PART-IS course.

For a more detailed and in-depth understanding, participants are encouraged to refer to the full three-day PART-IS course, which offers extensive coverage of the subject matter.

The aim of this course is to provide Accountable Managers, CA Managers, and Head of Design Organisations with a comprehensive yet time-efficient training solution by condensing the essential elements of the **PART IS** course into a single day, addressing the challenge of their possible limited availability for a three-day program.

This course provides a one day overview of the new regulatory framework on the ISMS (Information Security Management System) by EASA in connection with the requirements for the management of information security risks with a potential impact on aviation safety. The course is specific for the Accountable Managers / Head of Design Organisations / Managers of the CA.

COURSE DURATION

1 Day: 09:00 - 17:00 hrs.

TARGET GROUP

- The Manager in the CAA
- The Accountable Manager in Organisations
- The Head of Design Organisation (in the case of Design Organisation)
