

TRAINING COURSE

Management Systems: SMS/CMS for Aerodromes

Introduction

Note: This training course is also part of the newly launched JAA TO/EUROCONTROL Aerodrome Learning Path. More details, [click here](#)

This course introduces participants to the requirements for Management Systems within the aviation industry, with a specific focus on the aerodrome domain. It covers the purpose, scope, and key components of such systems.

Participants will explore various applications and scenarios where these components are applied - either independently or in combination with others.

The course includes practical exercises, such as hazard identification, determination of mitigating measures, and more.

COURSE DURATION

4 Days: 09:00 - 17:00 hrs.

TARGET GROUP

- Aerodrome Managers (AM, SM, CM, OSM, MM, Team Leaders)
- Members Of The SMS Organisation
- Other staff engaged in the Management, Operation or Maintenance of an aerodrome, or who are providing services to aircraft at or on an aerodrome
