CS-25 Large Aeroplane Certification - Introduction

Introduction

The goal of this training is to equip the participant with the basic knowledge how to apply for a change, propose a certification program and how to prepare and show compliance with the related certification standards.

This 4 day introductory training will provide the delegates with a basic understanding of the typical certification challenges when performing changes on Large Aeroplanes. The delegate will be presented the typical paragraphs with general interpretation. The content of the course includes the Regulatory Background (ICAO, JAA, FAA, EASA), Systems and Avionics, Cabin, Structure, Certification Topics and more.

🕐 COURSE DURATION

4 Days: 09:00 - 16:30 hrs.

👤 TARGET GROUP

Persons involved in the development of changes to TC, RTC or STCs. This includes personnel of authorities, DOAs, APDOAs or individuals intending to apply for minor changes. The training is **not** intended for TC Holders.
