

Aircraft De-icing/Anti-icing Auditor

Introduction

De-icing/Anti-icing audits are essential for a safe De-icing/Anti-icing operation. As such, this course will provide delegates with a solid theoretical background for a proper de-icing/anti-icing audit.

Course participants are recommended to follow our <u>De-icing/Anti-icing</u> on the <u>Ground training course</u> prior to attending the Auditor Training, as professionals should have prior knowledge of De-icing/Anti-icing on the Ground, besides Auditing experience.

The following subjects will be addressed in the auditing course:

- → General overview of a de-icing/anti-icing audit
- → Quality Assurance according the latest regulations
- → De-icing/Anti-icing audit checklists
- → Audit preparation
- → General (contracts, ground handling agreements, regulations, etc)
- → Fluid documents and records
- → Evaluation of staff training and qualification
- → Evaluation of de-icing/anti-icing facilities
- → Evaluation of de-icing/anti-icing equipment
- → Fluid sampling and field checks
- → Reporting

COURSE DURATION

1 day, starting at 09.00 and ending at approximately 17.00.

TARGET GROUP

All persons involved in de-icing/anti-icing auditing on behalf of operators, service providers and authorities
