TRAINING COURSE
Occurrence Reporting in Aviation

Introduction

The 2-day Occurrence Reporting training course will provide tools that ensure the effectiveness of reporting, leading to a reduction in workload for different departments/stakeholders and enhancement of safety.

In the dynamic world of aviation, the accurate reporting of occurrences is crucial for enhancing safety, improving operational efficiency, and fostering a culture of transparency. This course is designed to provide aviation professionals with essential knowledge and skills related to the regulatory occurrence reporting process, ensuring that participants are equipped to effectively identify, analyze, and report incidents.

The course will delve into the fundamental principles of occurrence reporting i.e. regulation EU 376/2014, EU 2015/1018, AMC 20-8A, EU 2020-2034 and related documentation, explore relevant guidelines, and engage in practical exercises.

A pre-requisite for attendance in this course is that the participant has familiarization with aviation regulations related to processes subject to occurrence reporting.

⏱ COURSE DURATION
