

# TRAINING COURSE

# Transition to Part-CAMO (Part-M - Future developments)

# Introduction

**Background:** EASA Part M is part of the Continuing Airworthiness Regulation (EU No 1321/2014) which involves continuing airworthiness of the aircraft, its parts and persons/organisations involved.

Scope of Part M:

#### Aircraft (responsibilities of owner)

- → Continuing airworthiness
- → Certificate of Airworthiness
- ➔ Airworthiness Review Certificate
- → Maintenance programme

#### Persons / Organisations

- → Performance of Maintenance
- → Continuing airworthiness management
- → Airworthiness review

However, Regulation EU 1321/2014 will be-restructured.

The new structure and the proposed regulations will be covered during this course

#### Why this course?

This course is needed:

→ To make organisations (CAMO's) aware of the new rules.

- → To help them to prepare themselves to be ready when the rules are amended.
- → To get an overview of what the impact of the changes are.
- → To make Sub-F organisations aware of the amendments.
- → To make owners and operators of non-complex aircraft and other than licenced aircraft operators aware of the options: Part-CAMO, Part-ML and / or Part-CAO.
- → To make all CAMO aware of the SMS and new occurance reporting requirement which is going to be mandated.
- → To create a starting point how SMS should be introduced within CAMO.

#### Part-CAMO is applicable for:

Aircraft used by licensed air carriers and Complex A/C:

- → Part-CAMO will supersede current Subpart-G of Annex I (Part-M)
- → Part-CAMO includes provision for SMS.

Operators of aircraft other than licensed air carriers and other than complex aircraft can choose to operate within Part-CAMO, Part-CAO or according to Part-ML.

General Aviation (GA) wil get its own regulation à Part-ML (Light), also there will be a combinded regulation for GA. This includes CAMO and maintenance for the GA toghether à Part-CAO.

Part-M subpart-F will be amended.

Also the impact for the maintenance programme and mimimum inspection programme (applicable for non-CMPA and a/c <2730kg and other ELA-2 a/c) will be discussed.

## COURSE DURATION

1 day training course, starting at 09.00 until 17.00

## **TARGET GROUP**

CAMO's, Maintenance, Aircraft owners/operators, OPS, CAA's
