

TRAINING COURSE

ICAO TRAINAIR PLUS - GSI Operations - Air Operator Certification - 18700

Introduction

The Government Safety Inspector (GSI) Operations - Air Operator Certification (OPS) course was developed as a collaborative effort between the International Civil Aviation Organization (ICAO) and the Federal Aviation Administration (FAA) in order to provide operations, airworthiness, and personnel licensing aviation safety inspectors, on a worldwide basis, with uniform skills and knowledge to conduct specific safety oversight functions.

This 14-days course, designed for operations inspectors, covers the basic concepts and steps involved in certifying an air transport operator.

Participants will be taught the five-phase certification process based upon ICAO Standards and Recommended Practices (SARPs) and Model Civil Aviation Regulations (MCARs).

COURSE DURATION

14 days, starting at 09.00 and finishes around 17.00.

TARGET GROUP

This course is for Aviation Safety Inspectors tasked with certification of air operators.
