

TRAINING COURSE

Special Operating Rules: ETOPS, MNPS, RVSM, LVO (AWOPS), PBN

Introduction

The aim of this course is to provide participants with a comprehensive understanding of the technical and regulatory requirements governing extended-range operations (ETOPS), reduced vertical separation minima (RVSM), low-visibility operations (LVO), minimum navigation performance specifications (MNPS), and performance-based navigation (PBN) systems.

This course will provide and explain the background to the existing requirements (International, EU and National) in regards to ETOPS, MNPS, RVSM, LVO (AWOPS) and PBN. This course covers the operational aspects in detail and only provides an overview of the associated airworthiness requirements. This course includes group exercises.

After this course, participants should have a good working knowledge of the EU Special Operating Rules (i.e. Operations requiring specific approval as per Part SPA)

COURSE DURATION

2 Days: The course times will be 09:00 - 17:00 hrs, or 08:00 - 16:00 hrs. You will be informed of the course times and login details to the virtual environment by email latest 2 days prior to the virtual course's starting date.

TARGET GROUP

- National Aviation Authorities: Staff members having duties and responsibilities in line with the scope of this course.
- International organizations: Operational personnel
- Operators and Service Providers: Operator's operations personnel and also providers of relevant operational products or relevant services for operators
